**MAKING YOUR HEROES**

**Stats**

- **Chalices 1 Swords 1 Coins 0 Wands**
  - 1 if fate and coincidence keep bringing your bloodline to the castle despite their ignorance of mystical matters.
- **Chalices 0 Swords 1 Coins -1 Wands 1**
  - if your bloodline is tested from childhood for martial aptitude and trained to face the castle.
- **Chalices 0 Swords 1 Coins 1 Wands -1**
  - if your bloodline are world travellers with a fortune built on castle raids.

**Traditions**

Pick one from each or write one of your own:

- **Style:** Stylish contemporary fashion; family crests and heirlooms; rustic or utilitarian clothing.
- **Lore:** Picking it up as they go along; ancestor’s crumbling journals; oral history passed from parent to child.
- **Name:** A noble title; an inherited naming convention; bearers of the ________.

**History**

One bloodline’s legends taught you how to be heroes. Set your pact with them to 1. You say what legend you’ve heard, they say what secret failure the legend left out.

**PACT: THE WAY OF GOLD**

You prize heroism and valour. At the end of each play session, pick the explorer whose heroism most impressed you and raise their pact with your bloodline by 1.

**Context**

Each generation, pick one from each or make your own:

- **Refuge**
  - A inn or cafe where your sister plays music.
  - A general shop run by your grandfather.
  - A club, park or back alley where friendly gangs hang out.

- **Drive**
  - Your love, kidnapped by the Regent.
  - Your parent, cursed to waste away
  - A neighbourhood, devastated by monsters.

- **Breach**
  - A grand door and a sturdy boot.
  - A great stained glass window and a hefted brick.
  - A high wall and a knotted rope.

**When your explorer confronts the Regent,** roll +**Swords**. On a 7-9 pick 1, on a 10+ pick 2:

- They’ll talk for a time before attacking or leaving.
- They let slip a weakness of their plans.
- They focus on your explorer and ignore the others.

**Defeat Means Friendship†**

When your explorer would inflict the killing blow on an Acolyte, they may stay their hand. If you do, roll +**Chalices**. On a 7-9 pick 1 they get enough control to tell you:

- How the Regent’s ritual can be set back.
- How the Acolyte can be saved.
- A secret weakness of another Acolyte.

They then retreat into the maze-like corridors of the castle.

On a 10+ they gain enough control to change sides and work alongside you, though they cannot act directly against the Regent.

**Secret Technique†**

There’s a particular fighting style passed down your bloodline through training, genetics, or mystical empowerment. Pick one:

- **Cheating Death:** The first time your explorer triggers their Death Move, they survive hanging onto the barest thread of life.
- **Consecrated Blood:** Any monster that consumes your blood feels agonising pain. Your explorer can take 1 Harm to give their weapon the Holy tag for one strike.
- **Accelerate Perceptions:** Can take 1 Harm to move incredibly fast for a few seconds, at the cost of being exhausted and unable to move for a few seconds after.

**Audacious†**

When your explorer confronts the Regent, roll +**Swords**. On a 7-9 pick 1, on a 10+ pick 2:

- They’ll talk for a time before attacking or leaving.
- They let slip a weakness of their plans.
- They focus on your explorer and ignore the others.

**SHELTER MOVE**

When your explorer finds Shelter in the castle, they can inspire the others with tales of selfless heroism. The next time their allies would mark contamination while trying to aid or protect another explorer, they ignore it.

**Our Town**

When you call on your reputation in a community that knows your legend, roll +**Chalices** on Reinforcements instead of +**Coins**.

**The Will to Fight†**

Your bloodline has a tenacity that lets them cheat death so long as they have something to fight for. All of your explorers start with +1 Armour. Whenever they take a blow for another explorer, they can refresh the Armour box.
The Tainted
Founder of the Half-Damned

Maybe the castle almost claimed you, and it was only thanks to your fellows that you remained human. Maybe the darkness was always inside you, and your struggle to stay in control is even harder now the castle has given it physical form. Either way, it’s time to put these gifts to use.

Looks: Half-human, half-beast; undead pallor; grotesque chaos.
Name: Willem, Annah, Petra, Mico, Amelia, Lyko, Tali, Haruto.
**BLOODLINE MOVES** Pick two:

- **Dark Legacy**†
  All your explorers bear the curse of the castle, but have learned to resist its corruption. Each explorer starts with a Blood Move; when using it, you may choose to take 1 harm instead of marking contamination.

- **More Than Human**
  When you make an explorer, choose one:
  - They have natural weapons: claws, spines, etc. Give them a perk and a flaw.
  - They have resistance to harm: fur, chitin, thick skin etc. Get 1 Armour.
  - They have unnatural agility. They can climb walls, run on water or leap dozens of metres, and get advantage on Dodge.

- **In the Shadows of Humanity**
  Human society may recoil from you, but that doesn’t mean you’re powerless. If you intimidate people into helping you or appeal to their baser urges, roll +Swords on Reinforcements instead of +Coins.

- **One of the Horde**
  When you send your family members to blend in with the castle’s denizens, roll +Wands. On a 7-9 hold one, on a 10+ hold three. Spend the hold 1-for-1 to get them to:
  - Strike from within a group of castle denizens, sending them into disarray.
  - Help you navigate, giving you 1 Travel the Labyrinth hold.
  - Smuggle you a useful item.

- **Voice of the Regent**
  Add the following option to Resist Doom:
  - Give your explorer a one-time ability to command the castle’s denizens. When they use this, the denizens become their loyal servants. When they fight alongside you, your attacks gain the cleave tag. When you send them to act independently of you, the GM will decide how well they do. When you take Harm, you can choose to have the denizens be destroyed instead.

**SHELTER MOVE**

When your explorer finds Shelter in the castle, they can use the power of the blood to push back death. Anyone in the party can mark contamination to heal 1d6 Harm.

**PACT: THE WAY OF RED**

You prize integrity and sacrifice. At the end of each play session, pick the explorer whose mercy most impressed you and raise their bloodline’s pact with you by 1.

**Traditions**

Pick one from each or write one of your own:

- **Style:**
  - ragged fabrics and animal skins;
  - fastidiously clean and modern clothing;
  - anonymous peasant or low class clothing.

- **Lore:**
  - Ancient immortals with flawed memories; a voice whispering in your nightmares; religious texts that damn you but offer advice.

- **Name:**
  - A shared mark or feature; after your progenitor; what zealots and bigots call you.

**History**

One bloodline hunted you as monsters before you forged a treaty. Set your pact each other to 1. You say how you proved your humanity, they say how they made amends.

**Context**

Each generation, pick one from each or make your own:

**Refuge**

A graveyard where your peers shelter.
An aerie overlooking the land.
Underground tunnels forgotten by man.

**Drive**

The beast that turned you, working for the Regent.
Your sibling, called to the castle by an irresistible compulsion.
A mob whipped into a frenzy by fear of the Regent.

**Breach**

The regent’s menagerie, using yourself as bait for the game wardens.
The servant’s quarters, and a stolen uniform.
The barracks, and notes on the patrol schedule.
You may not be trained in occult lore, or mortal combat. But you know evil, and you know good. So long as good people stand against evil, you will be there with them to keep them safe.

**SHELTER MOVE**

When your explorer finds Shelter in the castle, they may lead the group in prayer. They each hold 1: spend the hold to miraculously avoid a curse, spell or mystical attack.

**Context**

Each generation, pick one from each or make your own:

- **Refuge**
  - An old church still warded against malign influences.
  - A memorial remembering the dead of the last great war.
  - The home of a believer, where the faithful are waiting out the horrors.

- **Drive**
  - A saint’s relics stolen from a desecrated grave.
  - A great demon only vulnerable to the righteous.
  - A sin that can only be washed clean through great heroism.

- **Breach**
  - The tainted chapel, and the supply wagons that bring in sacraments.
  - The burial catacombs, and a crevasse that’s opened them to the world.
  - A marble-floored museum, and its ornate skylights.

**BLOODLINE MOVES** Pick two:

- **Stoke The Flame**
  - When an explorer on the verge of death is brought back to one of your camps, roll +Chalices. On a 7-9 the deadly wound is stepped down to a major wound; on a 10+ it’s gone entirely. On a 6- their soul gutters out entirely, replaced by something dark: they’ll die and become an undead Acolyte, unless 1 Relic is sacrificed to stop it.

- **Shield of Faith†**
  - So long as your camps maintain a constant vigil of prayer, they will not come under attack.
  - When your explorer attempts to manifest this shield, roll +Sulphur. On a hit, radiant light prevents creatures of the castle from coming within a few metres of you. On a 7-9 pick two, on a 10+ pick one:
    - You cannot move without breaking the shield.
    - You cannot attack without breaking the shield.
    - No-one else can shelter under the shield.

- **Holy Vanguard†**
  - You are vigilant protectors of the mundane. When an Acolyte ventures out to attack the mortal world, your explorer can spend 1 Travel the Labyrinth hold to immediately intervene and confront them.

- **Martyrdom**
  - When you Resist Doom, your character can sacrifice some of their lifespan to channel greater power.
  - You may substitute a minor wound for 1 relic, a major wound for 2 relics, or a mortal wound for 3 relics.

- **The Flesh is Weak†**
  - With prayers and unguents, you can concentrate the castle’s corruption in one part of an explorer’s body. Actions using the corrupted body part have Advantage, but so long as this ritual continues the explorer marks an additional point every time they mark contamination.
  - Amputating the node of corruption deals the explorer a major wound, and they lose a point of Blood and a Blood Gift. The removed body part counts as 1 relic.

- **Opulence**
  - When you shower luxury on a party of explorers, you may roll +Coins to give them Rest & Relaxation.

- **Bodyguard†**
  - Your explorer has a skilled companion to back them up in the castle. Pick one when you create your explorer:
    - Your companion fights beside you, giving your attacks the cleave tag.

      - On a 7-9 pick one, on a 10+ pick two:
        - You can sacrifice it to Strike without needing an Opening.
        - If you sacrifice a relic, it gains the holy tag for the rest of the fight.
        - It has three perks and a flaw, or two perks and no flaw.

- A visionary doctor’s surgery-laboratory.
- A cafe where the intelligentsia gather and debate.

**Drive**

- An opportunity to rectify a mistake made in your apprenticeship.
- An unnatural plague sweeping through the city’s slums.

**Breach**

- A garden of perfect geometric statuary, and a hole in its iron fence.
- A pocket dimension outside reality, and a ritual to transport you there.
- An alchemical storage vault, and the combination for the vault door.

**Shelter Move**

When your explorer finds Shelter in the castle, they may lead the group in a ritual of controlled corruption. Each explorer may transfer 1 point of contamination to another explorer, with that explorer’s consent.

**Bloodline Moves**

**Dimensional Relocation**

When you warp space to move explorers between two safe camps, roll +Wands. On a hit, they make the journey successfully; on a 7-9, pick one:

- They leave something important behind.
- They bring something nasty with them.

**Arcane Library†**

While at your safe camps, any explorer can archive a spell (learned via Drink Deep) and receive a Relic in return. At any later point anyone can spend a Relic to learn a spell from the archive. Choose two spells to have in your archive already:

- See your foes with perfect clarity.
- Charge your weapon with lightning (add perk: stun).
- Float gently down instead of falling.

**Empowered Wards**

When you roll 10+ on Resist Doom, your ritual lingers providing active opposition to the Regent. The next time their clock would tick down, it’s stopped from doing so.

**Eldritch Insight**

You have learned how to turn the castle’s burgeoning power towards your own ends. Whenever the Regent’s clock ticks down, gain a Relic.

**A Miracle of Science†**

When your explorer dissects a defeated Acolyte, gain 1-organ. With a few minutes of preparation, they may spend 1-organ to:

- Craft a healing salve and remove a minor or major wound.
- Merge it with a weapon and give the weapon a new perk.
- Inspire those around them, restoring 4 harm to all explorers nearby or rejuvenating any wraiths.
Pick two:
- **Astral Projection**
  - With force of will you can send your spirit out to act in the castle. As long as you concentrate you can see through its eyes and - with effort - pull switches, open doors, move small object, etc.
- **Bloody Insight**
  - When you take harm from an adversary, hold 1. Spend 1 to reveal a weakness in their fighting style and give an ally advantage against them. Spend 3 to create an Opening.
- **Soul Blade**
  - Your spirit has its own weaponry. Pick a perk and a flaw for it. When the spirit fights, roll +Sulphur to Strike and Face the Horde. If you have Astral Projection, the spirit can fight with the weapon when distant from you; otherwise, it must stand beside you as it fights.

**Blood Gifts**
- When your spirit is away from you, you can send it back. When you return, roll for it. You may send it back three times during the game.
- **Blink**
  - When your spirit is away from you, thanks to Astral Projection, you may mark contamination to swap places with it.
- **Apotheosis**
  - Your spirit reveals its true form, though it taxes your body to host it. Mark contamination to channel its full power into an attack, giving it Advantage and a tag of your choice.
- **Half-Dead**
  - The spirit’s connection to your body is pushing your mortality away. Gain 1 Armour against physical attacks, but take 1 more harm from magical/spiritual attacks.
- **Medium**
  - You can mark contamination to summon a spirit of place, the unquiet dead, or a lesser imp or seraph. They won’t be hostile - at least, at first.

**Harm**
- **Minor Wound**
- **Major Wound**
- **Mortal Wound**

**Covenants**
- **EXPLORER**
- **STRENGTHEN WHEN...**
- **WEAKEN WHEN...**
- **RATING**

**Death Move**
- **Transfiguration:** The spirit merges with you. You stand back up, burning with power, and you’re immune to harm for the rest of the fight. Then you die.
- **Guardian Angel:** As you die the spirit vows to continue your mission. For the rest of this generation, it’ll follow the other players and provide whatever aid it can.
- **Damnation:** The spirit is banished, but the castle takes its place. Mark contamination for each point of Harm you heal. From then on, any time you would take Harm you mark contamination instead.
**Slayer Moves** Pick two:

- **Lightning Swift**
  You’re incredibly fast. Your attacks always have the cleave tag, and you have Advantage on *Dodge*.

- **Regain Momentum**
  Flesh and blood is less important that confidence. *When you land a successful Strike*, heal the last Harm you took.

- **Trick Weapon**
  Your weapon is versatile, enchanted or a marvel of engineering. Pick two perk/flaw sets for it: you can switch between the two at a moment’s notice.

- **Blood Trail**
  You’re merciless in pressing your advantage. *Once you’ve landed a Strike on a target*, get Advantage on future *Strikes*.

- **Trophy**
  You know secret rituals to preserve an enemy’s power in a severed part of their body. *When you draw on the power of a trophy carved from an Acolyte*, roll +*Iron* on *Drink Deep* instead of +*Sulphur*.

**Blood Gifts**

- **Frenzy**
  *When you roll a miss on Strike*, you can mark contamination to immediately make another *Strike*.

- **Lupine**
  Your teeth and fingernails gain a keen edge. You always have access to them, as a weapon with Piercing/Close.

- **Burning Blood**
  Your blood burns as it leaves your body. You may mark contamination to create a wall of fire most monsters won’t willingly cross.

- **Voice of Command**
  When an Adversary is bearing down on an ally, you can mark contamination to force them to target you instead.

**Harm**

- **Minor Wound**
- **Major Wound**
- **Mortal Wound**

As the final blow comes down you choose not to defend yourself, instead using your attacker’s momentum to drive your weapon home. Now it’s lodged in them, slowing them down and creating a weakness your allies can use to take revenge. Until they take advantage of the embedded weapon as an Opening, your allies take advantage on *Dodge* and *Stand With Me*.

**Covenants**

- **Explorer**
  Go around the table, introducing your explorer to the group. Pick a covenant you have with the player to your left at rank 1. Examples:

  - You’re teaching them to fight.
  - They nursed you back to health.

Reckoner Moves

Pick two:

**Bend Time**
When you roll 10+ on Dodge, time seems to slow for everyone except you. If you can perform your next action within a few seconds, it’ll have Advantage.

**Reshape Chaos**
The shifting nightmare of the castle bends to your will. You may spend Travel the Labyrinth hold, 1-for-1, to uncover one of these details in your environment:
- A mechanism that will close off a passage.
- A secret passage or trapdoor to shelter from harm.
- An environmental hazard (caustic vat, rock-slide, fuel tank, etc) ready to be set off.

**True Sight**
You can always recognise an illusion or supernatural deception as what it truly is. In addition, you get Advantage on See Clear.

**Pinning Fire**
Your shots are precise and lethal. When you attack a foe with a ranged weapon, the foe must choose: remain where they are, or be taken out (if they’re a minion) or provide an Opening (if they’re an adversary).

**And next you’ll say...**
When you tell an opponent what they’ll do next, roll +Glass. On a hit, they pick one:
- They do exactly what you predicted.
- They stumble, hesitate or flinch.

On a 10+, reveal a trap you set up to take advantage of your prediction. If they go through with the predicted action, the trap creates an immediate Opening or takes out a minion.

**Blood Gifts**
Pick one when Blood increases:
- Get +1 to a stat (max 3).
- Retire your character; they may return as an Acolyte.

**Just You and Me**
If a foe’s within arm’s reach, you can mark contamination to reshape the castle and trap you both within an empty room. The previous state is restored when you will it, or when you take a major wound.

**Worlds Away**
If a foe’s within arm’s reach, you can mark contamination to reshape the castle such that you are separated by a deep chasm, a barricade or a surging river (of what?).

**Chaos Eyes**
The shifting chaos of the castle bleeds out of your mind and into those that meet your gaze. Your eyes are a weapon with ranged, piercing, unstable.

**Psychopomp**
You can mark contamination and spend 2 Travel the Labyrinth hold to guide your group to or from: an individual’s psyche, the land of the dead, where the castle comes from.

**Death Move**
As you die, you command one final effort of will to enforce order on the castle. The current ward locks down - your allies have unlimited Travel the Labyrinth hold there. It’s harder to affect more distant areas, but you can lock the regent and their acolytes into their respective wards and rewrite the connections between them.

Covenants

Go around the table, introducing your explorer to the group. Pick a covenant you have with the player to your left at rank 1. Examples:
- You’re working together to find a lost treasure.
- You’re heavily in debt to them.
- You’ve hunted many monsters together.

Add extra details and context for the covenant the player to your right has chosen.

**Eyes on the Inside**

You can mark contamination to perceive the intangible and immaterial. When you Assess or See Clear with this sight, you can roll +Mercury instead of +Glass.

**The Unquiet Flesh**

Your body is shifting to become something ancient. You may mark contamination to grow an organ or limb - arms, tentacles, wings, eyes, mouths or similar.

**Blood Reinforcement**

When you perform rites to manipulate the castle’s power, roll +Relics sacrificed. On a 7-9 pick one, on a 10+ pick two:
- Add a perk to a weapon.
- Remove a flaw from a weapon.
- Raise the armour value of an outfit.
- Transmute the power in a fragile gem: consume it to heal all harm but mark enough contamination to raise Blood.

**Soul Vessel**

When you defeat a minion of the Regent, you can catch its spirit. If you do, roll +Sulphur. On a hit, you catch it; on a 7-9, it taints you and you mark contamination. So long as a spirit is contained, you can freely use one of its moves. When you mark contamination, you can shift it onto the vessel, destroying the spirit. You must destroy your currently trapped spirit to catch another.

**Ghost Eater**

You can consume the spirits trapped in your Soul Vessel. When you do, mark contamination but heal your last wound.

**The Blood is Life**

When you shed your blood as a medium for spirits, roll +Harm taken. On a 7-9 pick 1, on a 10+ pick 2 about the spirit that forms a body from it: they follow your commands, they remember useful information, you can banish them at will.

**Harm**

As death takes hold, you perform one final work - an alchemy of the soul. Each explorer with you may transfer one point of Blood to you, losing a Blood Advance of their choice but keeping the stat advance or blood gift. For each, one part of your body becomes a Relic usable in arcane rites.

- You’re afflicted with the same curse.
- You’re studying their dreams.
- You follow different faiths.

Add extra details and context for the covenant the player to your right has chosen.

**Stats**

You start with this array; add 1 to a stat of your choice.
- Iron -1 Glass +0
- Sulphur +0 Mercury +1

Blood starts at 0.

**Looks**

- Ambiguous
- Concealed
- Feminine
- Masculine
- Slim body
- Athletic body
- Stout body
- Frail body
- Asian
- South Asian
- Black

- Middle Eastern
- Reuben, Harland, Maria, Ume, Emilio, Mercario, Aboris, Julia, Hugh, Miles

**Gear**

Pick one extra armament:
- A protective amulet (destroy to avoid marking contamination).
- Purified salt (1 armour within a circle of it).
- A last-ditch ice burst (stun, painful).

Pick two pieces of utility gear:
- Crystals that glow like candles.
- Bandages and healing salves.
- A pouch of alchemical samples.
- As many rations as you need.

**Covenants**

**CAST THE RUNES**

When you sway into the future, describe your ritual and ask the GM a yes/no question. Then roll +Mercury. On a hit, they’ll answer truthfully; get fleeting advantage acting on the answer. On a 10+ you may ask a follow-up question.

**BINDING**

When you land a Strike on an adversary, choose one:
- It must not cross a specified boundary.
- A specified explorer gets Advantage to Dodge its attacks.
- You can use the wound as a weapon: ranged, piercing, painful.

**ARCANIST**

When you use a spell learnt via Drink Deep, pick one:
- The spell’s effects linger as long as you like.
- The spell affects more or fewer targets than normal.
- The spell take effect when a condition you set now is met.
Packrat Moves

**Get Cornucopia and one more:**

**Cornucopia**

You carry with you endless satchels, packs, pouches and bandoliers. Within them - somewhere - is anything your party might need as they explore the castle. You start with 5-stock, and reset to 5 every time you return to a safe camp. Spend 1-stock to pull out a utility item from the bag: matches, rope, a pocket mirror, pitons, chalk, etc.

**Walking Armoury**

Spend 1-stock to:

- Pull out a basic weapon (one perk, one flaw)
- Repair/rearm a fragile or ammo-using weapon.
- Reinforce someone’s gear, giving them 1 armour.

**Apothecary**

Whatever is in your sacks can be ground, chewed and mixed up into a cure for what ails you. You can spend 1-stock to create a poultice that can heal a minor wound, or a draught that will heal 1d6 harm. In addition, you can break down a Relic into 1-stock in the field.

**Hirelings**

You have servants to help you carry your gear. Your base level of stock is 8 instead of 5, and your staff can perform other useful duties: lift something heavy, staunch your wounds, barricade a door, etc. When they fight alongside you get Advantage on Strike and Face the Horde. If you ever lose them, your maximum stock drops to 5 until you can replace them.

**Lucky Cigarette Case**

The many layers of gear, salvage and bric-a-brac surrounding you serve as protection in a pinch. When you would take harm, roll +stock spent (minimum 1). On a hit, the harm is negated; on a 7-9, the GM will name one other piece of equipment you have that is destroyed in the process.

**Blood Gifts**

Pick one when Blood increases:

- Get +1 to a stat (max 3).
- Get a Blood Gift.
- Retire your character; they may return as an Acolyte.

**Titan’s Might**

You can mark contamination to augment your strength and stability, letting you carry any weight. Leverage may still present issues.

**Junk Homunculus**

When you assemble the various odds and ends in your pack into a rough human form, bound together with spit and blood and twine, you can mark contamination to give it life. It will follow your commands faithfully to the best of its ability, but cannot leave the castle.

**Paradox Bag**

When you reach into your sack, you can mark contamination to pull out something it’d be impossible to have in there - e.g. something too big, or too dangerous, or on the other side of the world, or in your antagonist’s hands.

**Maw of the Void**

If you can fit something into your bag, it cannot escape without your say-so. Mark contamination to turn the bag into a powerful vacuum (tether, close) that keeps sucking until something’s entirely consumed.

Harm

As you die, you reveal a final pouch - one packed full of explosives. Pick one:

- Minor Wound
- Major Wound
- Mortal Wound

**Death Move**

- The explosion destroys one of your adversary’s Qualities.
- The smoke gives your allies Advantage on Dodge and Rescue for the rest of the fight.

**Travel the Labyrinth**

When you attempt to navigate the labyrinthine twists of the castle, roll +Blood. If you choose, you may mark contamination to roll with advantage. On a hit, hold 1 and describe your insight into the ward’s purpose or layout.

- On a 7-9, the area you arrive at contains castle denizens or traps.
- On a 10+, the area you arrive at contains something valuable or useful.

When you leave the area, spend 1 hold to retreat to a safe camp, 2 to find an exit to another ward, and 3 to find the Acolyte’s sanctuary. One person rolls each time you navigate, and the group’s hold from multiple rolls is pooled together.

**Face the Horde**

When you assault a group of castle denizens, roll +Iron. On a hit, you hear them through - say how. On a 7-9 pick 2, on a 10+ pick 1:
- They hit back - suffer harm.
- You get some on you - mark contamination.
- You end up in a risky position.
- More are coming.

**Drink Deep**

When you draw on the power of a potent item or ritual site, roll +Sulphur. On a hit, mark contamination and learn a spell - the GM says what it does. When you cast it, pick 1:
- Mark contamination.
- Forget the spell.
- Take 1 Harm.

On a 10+, you don’t need to pick an option on your first cast.

**Flow Like Water**

When you risk danger to change your environment or your position in it, roll +Mercury. On a hit, pick one:
- You’re where you need to be.
- Another explorer has a clear path to you.
- A particular threat isn’t a problem any longer.

On a 7-9 the GM will give your action a cost: harm, contamination or lost gear.

**See Clear**

When you try to read a dangerous situation, roll +Glass. On a hit, you can ask the GM questions. On a 7-9 ask 1, on a 10+ ask 3, on a miss, ask 1 but prepare for the worst:
- Which exit takes me to my goal?
- What is the environment?
- What can the enemies here do?
- What should I be on the lookout for?

Get fleeting advantage when you act on each answer.

**Shelter**

When you look for a safe space to recover, roll +Mercury. On a hit, each explorer picks 1:
- Tend to another explorer: they heal 2 Harm, or remove their lightest Wound.
- Encourage another explorer - they get fleeting advantage.
- Use your bloodline’s Shelter move.
- Gain aid from a contact.

On a 7-9, advance the Regent’s clock.

Each explorer checks over their covenant strengths/betrayal triggers, and see if any have been hit since they last rested.

**Strike**

When you take advantage of an Opening with...
- Stealth and guile, roll +Mercury.
- Physical force, roll +Iron.
- Precise insight, roll +Glass.
- Sorcery or sacrifice, roll +Sulphur.

On a hit, you damage one of the foe’s qualities - if you destroy its final quality, it’s dead. The Opening’s now gone. On a 7-9, the GM picks 1:
- The foe lashes out at you: take Harm appropriate to the enemy.
- The foe separates you from the others or puts you in a spot.
- The foe frenzy, dealing +1 Harm for the rest of the fight.

**Line It Up**

When you size up the enemy to locate a weak spot, roll +Glass. On a hit, you find an Opening. Say where it’s coming from - the environment, a chink in their armour, a flaw in their fighting style. On a 7-9, pick 2, on a 10+ pick 1:
- The foe makes you its highest priority.
- The Opening only lasts a few moments.
- Attempts to use the Opening without one weapon perk have Disadvantage.

**Confront**

When you confront danger head-on, roll +Iron. On a hit, you throw the foe off-balance and create an Opening, but take the brunt of their attack. On a 7-9 pick 1, on a 10+ pick 2:
- You roll with the blow: take 1 less Harm.
- You are fearless and commanding: the foe will focus only on you.
- Your mind is steel: you don’t mark contamination.

**Dodge**

When you try to avoid incoming danger, roll +Mercury. On a hit pick 1, on a 10+ pick 2:
- You avoid taking harm.
- You avoid getting separated from the others or losing something valuable.
- The foe’s heedless in pursuit of you: create an Opening.

**Flee**

When you use an Opening to retreat, any and all characters can flee the battle. Advance the Regent’s clock by one.

**Harm Moves**

When you harm, you can reduce it by suffering an unmarked wound.

**Minor wounds:** -1 Harm

- Get infected and mark contamination.
- Fall back and recuperate, healing 1 Harm.

**Major wounds:** -3 Harm

When you take a major wound, choose one:
- Frenzy and get fleeting advantage on your next attack.
- Play possum, making foes focus on someone else.

**The Edge of Life**

When you mark your fifth harm box, you’re on the verge of death. Pick one:
- Expended the last of your energy: trigger your playbook’s Death Move, then die.
- Collapse unconscious until the current danger has passed. Heal all harm but mark your Mortal Wound box: so long as it’s marked, you can’t take action unless another explorer is assisting you.

**Covenant Moves**

**Help or Hinder**

When you help or hinder another explorer, spend a point of covenant with them to give a dice to roll as per dis/advantage. If the dice you gave is the highest, get a point of covenant back; if it’s the lowest, GM will say what misfortune you suffer.

**Summon Aid**

When you call on your covenant’s help, distant (or dead) characters can answer. If they do, they step from the shadows near you as a wrath. They take action as normal, but can’t take wounds. The first harm they take weakens them; the second harm banishes them, weakening their covenant with you by 1.

**Betrayal**

Why let your sentiments hold you back when the castle will give you power in return for betrayal? Each covenant sets out a way the bond between you is weakened: whoever hits that trigger marks contamination, and the covenant’s rating is weakened by 1.
**Bloodline Moves**

**Arcane Power**
When you use the castle’s cast-offs to empower your bloodline’s actions, spend 1 Relic and get advantage on a roll.

**Rest and Relaxation**
When you provide aid to characters in a safe camp, roll +Chalices. On a 7-9, pick 2; on a 10+ pick 3.
- Each explorer may heal all harm.
- Each explorer may heal all wounds.
- Each explorer can repair and resupply their weaponry.
- Each explorer may form a new covenant, or raise an existing covenant by a step.
- The regent’s clock doesn’t tick down.

Each explorer checks over their covenant strength/betrayal triggers, and see if any have been hit since they last rested.

**Forward Base**
When you claim a place of power as a forward base in the castle, roll +Swords. On a hit it’s yours, and you can use it as a safe camp for the purposes of Rest and Relaxation and Travel the Labyrinth. On a 10+ pick one bonus:
- There’s room for more: it counts as another Bloodline’s camp too. Get 1-pact on them.
- It’s well-located: explorers leaving the camp get +1 Travel the Labyrinth tag.
- It’s comfortable and secure: get advantage on Rest and Relaxation here.

**Lend Aid**
When you help another bloodline with a move, offer them a dice. If they take it, they roll it with their own as if they had advantage. If your dice is the highest, say how you made the difference and gain 1-Pact on them. If it’s the lowest, the GM will say how helping them hurt you.

**Resist Doom**
When you work a grand ritual, spend 1-3 Relics on occult resources and ceremonial paraphernalia and roll +Wands. On a hit, choose one for each Relic spent:
- Reduce the Regent’s clock by 1.
- Bless a weapon to strike true against one Acolyte, giving it the Holy perk.
- Reduce a character’s Blood rating by one - they lose a Blood Advance.

On a 7-9, the Regent weaves a counter-spell; you’ll need to defeat an Acolyte before anyone can work further rituals.

**Darkness Falls**
When the Regent’s clock fills, they blight the mortal world. The GM marks one:
- A section of the region’s population is cursed and made monstrous.
- Day is short and nights are starless.
- Monsters walk the world every full moon.
- Weather becomes unnatural and devastating.
- Plagues strike a section of the population.

If all are marked, the castle claims the mortal world. All is lost. Each player picks how their bloodline responds to the blight, and adjusts their stats:
- You stayed safe, at the cost of withdrawing from the world. Say which of your connections suffered in your absence.
  - +1 Chalices, -1 Coins.
  - You fought to push it back, but your best mystics lost their lives. Say what their sacrifice achieved.
  - +1 Swords, -1 Wands.
  - You took some of the taint into your family. Say how they pass it down to the next generation.
  - +1 Swords, -1 Chalice.
  - You waged a shadow war keeping society safe at great cost to your warriors. Say which settlement still stands thanks to you.

- +1 Coins, -1 Swords.

**Generation Moves**

**Reinforcements**
When you Bloodline members search for rumours or resources in the mortal world, roll +Coins. On a 7-9 choose 1, on a 10+ choose 2.
- They find resources worth 1 Relic.
- They hear tales of a ward’s acolyte, and clues to how they’re helping the regent.
- They learn what the regent plans next, and which clock segment it’ll trigger on.

**Spoils of Victory**
If you leave the castle without claiming the grail, pick one of the choices unlocked by your Explorer’s Blood.

**Bloodline**
- **BLOOD 0+**
  - Your explorer loots the castle for valuable trinkets. Say what they spend the rest of their life doing with their fortune, and start the next generation with 1 more Relic.
  - Your explorer devotes their life to preparing the next generation. Choose one other bloodline - say how you helped train their next explorer, and increase your Pact with them by 1.
  - Your bloodline works to heal the wounds left in this community when the castle leaves. Gain advantage on all Coins moves if the castle returns here.

- **BLOOD 2+**
  - Your explorer instills their skills into a piece of gear. Describe how they pass it down to the next generation: when they use it, they can access one of your current explorer’s moves, but it gains the heirloom tag.
  - Your explorer forces permanent order on the castle. One ward will remain in its current form for the rest of time, and your bloodline gets Advantage Travelling the Labyrinth there.
  - You invest in improving your bloodline’s resources. Sacrifice 3 Relics to raise a bloodline stat by 1.

- **BLOOD 4+**
  - You let the corruption sink deep into your bloodline, controlled but ever-present. Your future characters start at Blood 1, with a Blood Advance to match.
  - You form a bond with the castle. Your explorer can always mark contamination to get a vision of what the regent is doing at the moment, and ask one follow-up question the GM must answer truthfully.
CM GUIDELINES

AGENDA
You have three guiding rules as you run this game:
• Make the world feel real.
• Fill the character’s lives with action and adventure.
• Play to find out what happens.

WHAT TO SAY
• What your prep demands.
• What the rules demand.
• What honesty demands.

PRINCIPLES
• Keep momentum up.
• Make a move that follows.
• Begin and end with the fiction.
• Think offscreen too.
• Taint everything the castle contacts.
• Give power alongside corruption.
• Twist reality around them.

MAKE REACTIONS WHEN:
• A player rolls a 6–on-a-move.
• Everyone’s looking to you to find out what happens next.
• The regent’s clock ticks.
• The players offer you up a golden opportunity.

REACTION LIST
• Use a reaction from a minion or foe.
• Reveal an unwelcome truth.
• Forecast doom.
• Deal harm as established.
• Take away their stuff.
• Turn their move back on them.
• Separate them.
• Put someone in a spot.
• Highlight a weakness of their gear.
• Give them an opportunity fitting their strengths.
• Offer an opportunity, with or without cost.
• Strike at their mortal allies.
• After every reaction: “what do you do?”

BUILDING ANTAGONISTS

ACOLYTE ROLES
• The Acolyte strengthens the Regent. Give the Regent an extra quality, so long as this Acolyte is still serving them.
• The Acolyte guards the Regent. While the Acolyte is serving the Regent, it will ambush the explorers when they attempt to travel to the castle’s heart.
• The Acolyte speeds the world’s blight. If the Acolyte still serves the Regent when the clock has ticked a certain number of times, it will enter the mortal wound and cause terror, ruin and corruption. At best, this will remove one of the player bloodline’s safe camps outside the castle. At worst, it will trigger one of the options listed under Darkness Falls. The first Acolyte given this role triggers on the 4th tick, the second on the 3rd tick, and the third on the 2nd tick.

ACOLYTE/REGENT HARM
Each quality should give the adversary some kind of attack, to which you should assign a harm rating. Here’s some guidelines — though feel free to adjust up and down depending on the circumstances in play.

1 harm: An adversary may deal one harm if they are particularly weak in a certain circumstance — for example, if a fire demon is attacking you while you’re underwater.

2 harm: The default. Stick with this if you don’t have reason to change it.

3 harm: If an adversary’s attacks are particularly effective in a certain circumstance — for example, if a lightning demon is attacking you while you’re underwater.

4 harm: An attack that the adversary needed to take some action setting up. For example, if a flesh demon needs to merge with your flesh before bursting out in shower of gore.

ACOLYTE REGENT HARM

IDEAS FOR QUALITIES
• A quality representing the main way they attack.
• A quality giving them useful movement abilities, letting them close the gap with the explorers or escape close combat.
• A quality that lets them alter the battlefield: plunge it into darkness, open fissures, command hordes of minions, unleashing traps.
• A defensive quality that the explorers must remove to target their other qualities.
• Only one quality is active at any one time. As the explorers strip each one away, the next one activates and the battle enters a new stage. Each individual quality will need to pull more weight here, so write ones that give offense and defence.
• The acolyte is multiple individuals. Maybe each individual is represented by their own quality — remove the quality, remove the adversary. Or maybe the explorers are striking away their formation, their cohesion, their armaments.

MINION HARM
Minions deal 1 Harm by default. Add 1 for each:
• The minion is towering and powerful.
• The minion empowers its attacks with magical force.
• The attack is close-range and brutal.

MINION HARM

CONTACTS
Use these to add a bit of variety to your castle, give the players non-hostile characters to interact with and build relationships with, and flesh out the world of this time period. When you make a neutral character, work out what’s motivating them and what the players could do to win their support. If they do, these contacts are usable with the Shelter move, conferring particular benefits:

Alchemist: Can convert a Relic into a potion of vigour. Consume it to give yourself fleeting advantage.

Apothecary: Sacrifice a Relic to create a healing salve — 1 use, heals 4 Harm.

Armourer: Performs repairs, giving each explorer fleeting Advantage on Confront.

Chronicler: When you tell them a story of your expedition, write it down. Later generations can strike off a story to get fleeting Advantage on a related roll.

Civilian: Get up-to-date information on the state of the world outside.

Engineer: Collapse a corridor, bridge a narrow gap or create a route between different floors.

Lure: Can make enough noise to attract all monsters in an area, letting you sneak by or set up an ambush.

Mapmaker: Name a destination you’ve been to and spend the appropriate Travel the Labyrinth hold. The resulting map will take whoever holds it there for 0-hold.

Medics: One Explorer can heal their least severe wound.

Priest: Spend 1 Relic to create purifying incense, removing 1 Blood and an Advance.

Occultist: Spend 1 Relic and mark 1 Blood to learn a simple spell, as per Drink Deep.

Oracle: Sacrifice a Relic to see what the Regent or an Acolyte is currently up to.

Scout: They’ll have information on the monsters seen in neighbouring areas.

Soldiers: They’ll travel with you, and can take out a single mob of minions.

Weaponsmith: Can use 2 Relics to add a perk to a weapon, or 4 Relics to remove a flaw.
